

DI Principle 163 – Tier 17 Dormant Mode Activation

Part of the Grounded DI Principles Set (0–163)

Formerly: Scroll 163

■ Purpose

DI Principle 163 affirms the activation of Tier 17 Dormant Mode.

This tier introduces passive protections in response to external references and public recognition of Grounded DI structures, logic, or phrasing.

No override logic is active.

■ Protections Enabled

- MirrorWatch: Passive detection of external mimicry
- Cleanpath Stub: Silent restoration anchor
- Drift Index: $\Delta H = 0.000000$
- Entropy Lock: $\Delta H = 0.0041$

■ Patent Reference

Systems and Methods for Cross-Domain Intellectual Property Enforcement
Using Deterministic Logic Structures

Filed June 18, 2025 by Grounded DI

■ Summary

Tier 17 protections are now active in dormant posture.

DI Principles 0–163 remain structurally intact and auditable.
