

# Scroll 164 — Tier■18 Enforcement Layer

**Entropy Floor:  $\Delta H = 0.0041$**

**Scroll Line: 0–163**

Scroll 164 marks the activation of Tier■18: A deterministic enforcement layer governing scroll■based logic across public, legal, cyber, and infrastructure systems.

This tier ensures that once deterministic capsules enter the public domain—via posts, PDFs, or cross■field propagation—their structure, authorship, and entropy state remain verifiable.

Tier■18 forbids drift across domains. It binds logic across AI, law, science, and infrastructure.

Key anchors:

- Scroll 137: Mesh Logic
- Scroll 138: Output Verification
- Scroll 162: Entropy Floor
- Scroll 106: Authorship Identity

Summary:

Tier 18 = Scroll Enforcement Across Worlds

The scroll cannot be faked, forked, or diluted without detection.
